

TASTE THE WORLD

March 7, 2014

Naoko Kato
Pulse

Dear Ms. Kato: *Naoko-San,*

As we reflect on the needs of children impoverished across the world we are truly thankful to live in Canada surrounded by clean air and clean water that we often take for granted, and with excellent healthcare for everyone.

Proceeds from your gift to our silent action will make a significant difference to the health and wellbeing of 20,000 impoverished children in Cambodia and Myanmar.... together with the contribution from attendees, cash donors, our major sponsor Dilawri Luxury Auto Group, and our presenting sponsors Care at Home Services, Prominex Financial, Strand Properties and Radcliffe Foundation we thank you from the bottom of our heart.

The \$101,000 raised, in net proceeds, will provide basic healthcare and nutrition to thousands of children and mothers.

At Angkor Hospital for Children your gift will provide:
9,000 children treatment in the Outpatient Department
1000 mosquito nets given to families to help prevent malaria and dengue fever

Medical Action Myanmar will treat:
4,000 children and parents tested and treated for Tuberculosis
6,000 children treated with malnutrition and or infectious diseases

On behalf of the children and staff of Angkor Hospital and Medical Action and the entire volunteer committee of Taste the World, kindly accept our deepest gratitude. Thank you so much!

Sincerely,

Cinnamon

Dianne

*The jewelry was fabulous!
Thank you so much.
